

Описание авторского дидактического пособия  
учителя-логопеда Петровой Светланы Петровны:

**«Два-две»**

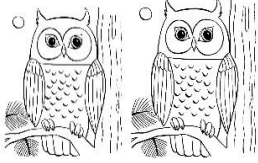

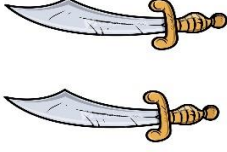

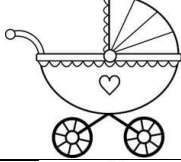

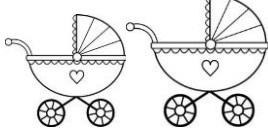

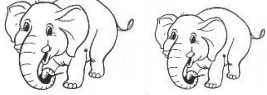

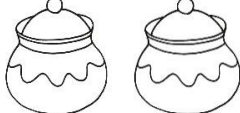

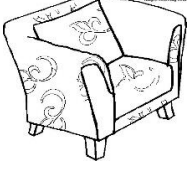

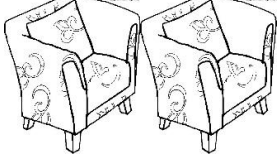

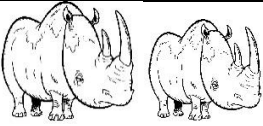

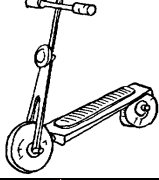

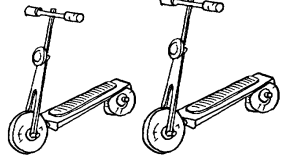

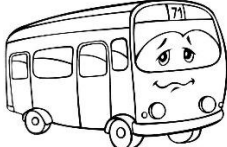

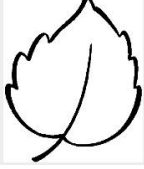

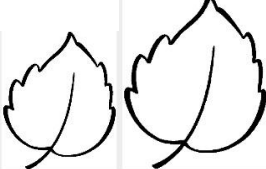

Пособие предназначено для автоматизации звукопроизношения в словосочетаниях у дошкольников с тяжелыми нарушениями речи (ТНР).

Закрепление произношения звуков сочетается с упражнением в закреплении употребления числительных один-два, одна-две, одно-два в согласовании их с существительным.

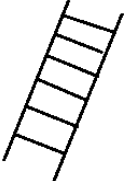

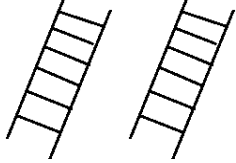

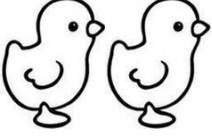

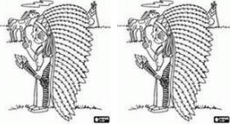

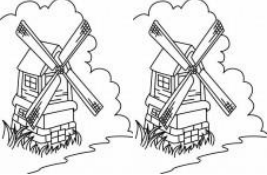

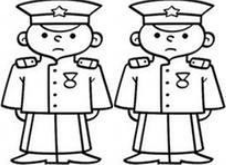

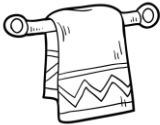

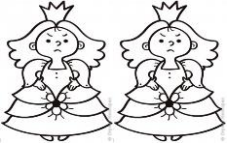

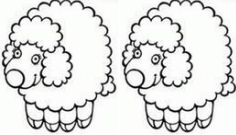

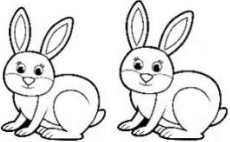

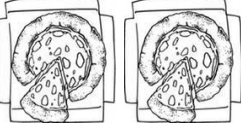

Предлагаются две колонки картинок, где изображен один и два одинаковых предмета. Требуется назвать предмет и согласовать его с числительным: один - одна – одно, затем назвать два предмета и согласовать его с числительным два или две. Один предмет предполагает два словосочетания (один штурвал – два штурвала; одна шляпа – две шляпы).

Предлагаются наборы картинок на следующие группы звуков: свистящие (С,З), шипящие (Ш,Ж,Ч,Щ), сонорные (Л,Р,М,Н), губнозубные (В,Ф), задненёбные (К,Г,Х).
