Дидактическая игра "Органы чувств»

Игра предназначена для детей старшего дошкольного возраста.

Задачи игры:

- закрепить знания об основных органах чувств;
- расширить словарный запас;
- развивать связную речь;
- развивать внимание.

Игра состоит из пяти больших карточек, соответствующих пяти органам чувств:

«Глаз» - зрение

«Рот» - вкусовые ощущения

«Нос» - обоняние

«Ухо» - способность слышать

«Руки» - тактильные ощущения

Цель: нужно подобрать каждому органу чувств шесть маленьких карточек и объяснить, почему та или иная карточка подходит к данному органу.
